

The Kenya Museum Society presents

SOMETHING NECESSARY

A new film from the producers of Nairobi Half Life

Anne struggles to rebuild her life after the civil unrest that swept Kenya after the 2007 elections, claiming the life of her husband and the health of her son

Joseph, a troubled gang member who participated in the violence is drawn to Anne and her farm, seemingly in search of redemption.

They both need something to allow them to shed the painful memories of their past and move on...Will they find it?
